Beverstaart

1 beverstaart,
zout,
ei of eiwit,
azijn,
paneermeel,
boter of frituurvet,
citroen,
takjes peterselie.

Den platten beverstaart, die door de kenners voor een delicatessie verklaard wordt, schubben, wasschen en in half water, half azijn met wat zout gaar koken. Hem vervolgens afdrogen, in eiwit en paneermeel wikkelen en in heete boter of in frituurvet vlug bruin bakken. Den schotel met partjes citroen en takjes peterselie garneeren.

Uit: HMSJ de Holl (1908) Ik kan koken.

Contents

Chapter 1	General introduction	9
Chapter 2	Territoriality and time budgets in beavers during sequential settlement	27
Chapter 3	Diet choice by beavers and the role of nutritional quality and palatability of plants	47
Chapter 4	Selective foraging on woody species by the beaver, and its impact on a riparian willow forest	71
Chapter 5	Cadmium in beavers translocated from the Elbe river to the Rhine/Meuse estuary, and the possible effect on population growth rate	93
Chapter 6	Viability analysis for a translocated beaver population	107
